

# CUBIST ART PROJECT

**Materials:** Pieces of cardboard (8"x10" for background), smaller pieces of various shaped cardboard, white glue, plates for glue, pencils, yarn for hanging artwork, tempera or acrylic paint

## STEP ONE

Start by cutting smaller pieces of cardboard into various shapes (squares, triangles, etc.)

Make sure to cut enough shapes to fill the entire cardboard background.

## STEP TWO

Using your tempera or acrylic paints, paint your smaller cardboard shapes using whichever colors you prefer.

Remember to allow these shapes to dry before going to Step 3.

## STEP THREE

Now it's time to glue your colored cardboard shapes to your background.

If you'd like to hang the artwork when it's finished you can attach a piece of string to the back of the cardboard.
